AN ABC GUIDE TO THE REDTOOTH SMARTQUIZ!

WHAT DO I NEED TO GET STARTED?

WELCOME!

Our app based interactive quiz system, is the most flexible solution on the market for the best quiz nights!

You can play in your pubs using local WiFi or via a PIN code connecting via the internet, you can even allow people off site to play along too - it's a very versatile solution!

Over the lockdown the game has evolved to be the most reliable and popular interactive quiz system around (even breaking a Guinness World Record that we are talking to them about!).

We have delivered regular quiz games, for companies such as Greene King, Marstons, Stonegate, Gullivers Theme Parks, Sodexa plus many other corporate clients. As the official Brain Trainer for ITV's The Chase, we work with all The Chasers and Mark and Shaun have been part of our recent weekly online quiz shows - all using the same software that's available for your venue!

This quick guide gives you an overview of what you need to run the SmartQuiz in your venue as well as what players need to connect.

SO WHAT DO I NEED?

There's more details in the **connection plans** on the following pages but basically you'll need a Windows PC with our software on, connected to a local WiFi network or the internet as detailed in the following connection plans. You'll also need to hook the audio from the PC into your sound system or a seperate speaker so people can hear the sound FX and jingles etc.

You can also hook the video from the PC into a TV or Projector or even your in-house AV system via HDMI (depending on your PC's output) as there are some great graphics and on-screen content too.

This isn't essential though as our system delivers both the questions and answers as well as real time scores to each device playing along so it works fine without a big screen too.

CONNECTION PLAN!

SMART QUIZ

WHAT DO I NEED? OPTION ONE
LOCAL WIFI SETUP (INC SCREEN & SOUND)

WIFI GAMES

This is the ideal setup - our preferred option for the best pub quiz experience.
Optional Screen

PA System

START HERE!

You will need a Windows PC that has an i5 processor with 4G ram, or better, to install the SmartQuiz desktop software on.

The PC also needs connecting to your sound system or an external speaker for music and sound FX.

The PC can also be connected to a TV or Projector if required via HDMI for on screen graphics.

SmartQuiz Software

Windows PC

LOCAL WIFI

PC connected to ROUTER via Ethernet Cable.

Router has an OPEN WIFI NETWORK (eg: no password) with SMARTQUIZ as the SSID (Network Name).

Guests connect to this open network to join a game via the app installed on their device. They select - JOIN WIFI GAME to connect once the quiz is running.

We have a simple router setup guide available or we can supply a suitable one for you - just get in touch!

INTERNET

Your PC needs to have an active internet connection, this can be via WiFi but ideally by cable.

Setup your SmartQuiz software to use PIN number for connecting.

You guests need to have an internet connection on their device either via your WiFi or via mobile data and connect to the quiz via PIN number.

Connected via Internet to Your Quiz

APPS!

Your guests play along with the quiz using their own phone or tablet with our app installed and connect to your PC to join the quiz.

WHAT DO MY GUESTS NEED TO PLAY?

1. INSTALLING THE APPS

Our free Redtooth SmartQuiz app is available in the following app stores - your customers can download them in advance or on the night before the quiz...

You can search for 'Redtooth SmartQuiz' or scan the QR code alongside to download.

Download on the App Store

GET IT ON Google Play

available at amazon appstore

2. JOINING A GAME

Once you've installed the app - you have two ways of joining a game and your host will explain which one to use. These are detailed earlier in this guide.

**Then enter your team name in the box and...**

If it's a **Local WiFi Game** - then make sure your device is connected to the SmartQuiz WiFi - then click **'Join WiFi Game'** and you'll be connected to the quiz.

If it's a **PIN Game** using the internet then make sure you have an active internet connection and click **'Join Game via PIN'** - the host will give you the PIN code to enter and you'll be connected to the quiz.

1. GETTING THE SOFTWARE

You can download a demo version from our website which will allow you to install and play a sample quiz game to see how it all works - either visit us at **www.redtoothsmartquiz.com** or get in touch and we'll send you the link. When you're ready to move forward we'll send you an email with a license code in and your good to go!
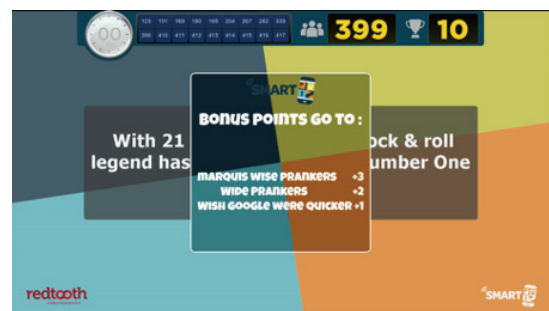

2. YOUR WEEKLY QUIZ

Our daily SmartQuiz game is hand crafted for each night of these nights - **Monday, Tuesday, Wednesday, Thursday and Sunday.**

It runs for 90 mins and has lots of different question types, multiple rounds and lots of interaction - there's lots more information on the types of questions on the website - take a look!

Let us know which night you want to run your SmartQuiz on and we will arrange for your quiz to be delivered direct to your app on the morning of your quiz. Simple.

You can also run mini games, create your own custom rounds for special occasions and play our weekly bonus games too each week.

3. WANT MORE INFO?

There are more helpful guides available with detailed information for example - a quick start guide on using the software, a walk through video showing the features and even a 60+ page full manual.

There's also a dedicated app for remote controlling the game so you can move freely about the venue.

We have a private support area on Facebook and our online knowledge base too so there's plenty of places to get help and advice to get you up and running as well as tips and content to make the most from your SmartQuiz nights.
